BU GETS NUC NOD FOR NEW PROGRAMMES

Prof. Philemon Amanze

By Josephine Akarue

Babcock is set to commence six new undergraduate academic programmes following the National Universities Commission's nod of approval.

The programmes domiciled in the two new schools: School of Environmental Studies and School of Engineering, will take effect from the 2022/2023 academic session.

Together, the Schools will run Bachelors degrees in: Architecture, Estate Management, Electrical & Electronics Engineering, Mechanical Engineering,, Civil Engineering, and Computer Engineering.

The NUC also approved the commencement of full time Postgraduate Diploma and Master's Degree programmes in Social Work.

"These approvals will help us contribute our quota to the development of Engineering in the country as well as make our mark in other critical areas," said the Senior Vice President Academics, Prof. Philemon Amanze.

"Ensuring programmes' take off and sustainability would mean more work, but that would challenge us to train Engineers who will not compromise standards," he said.

"The predominance of collapsed buildings in many parts of this country implies that some people are compromising on both quality and quantity."

"We are going to train people who will imbibe the fear of God and the competence to do what needs to be done," he said..

MASS COMM GETS ANOTHER FIVE-YEAR ACCREDITATION

Prof. Ademola Tayo (6th left) with Mr. Eugene Onuora APCON team lead (4th r) at the exit report after resource verification visit and officers of Babcock

The University's Mass Communication Department has received another five-year accreditation from the Advertising Practitioners Council of Nigeria, APCON.

In a congratulatory letter signed by the Registrar, Dr. Olalekan Fadolapo, the regulatory Council conveyed its approval following its resource verification visit in April.

The approval accords eligibility for Bachelor's degree holders of accredited institutions to be professional Associate practitioners in Advertising.

The Council also made recommendations on raising the bar of service delivery in the department

ADMINISTRATION BREAKS GROUNDS FOR SCHOOL OF NURSING, OTHERS

Prof. Ademola Tayo (4th left) takes charge with the trowel. With him are other principal officers and AVP Works & Physical Planning, Prof. Adeniran

By Olugbenga Olajobi with additional reports from Deborah Madu

In line with its infrastructural development policy, the University administration last week laid the stone for the construction of another faculty building on the main campus.

President/ Vice Chancellor, Prof Ademola Tayo, led a team of officers to the site for the groundbreaking.

The new structure which is situated opposite the Laz Otti Memorial Library is replacing the old central store and wood works department.

With an expected delivery date of March 2023, the three-story building project will be equipped with modern laboratories, lecture rooms and offices for faculty and others as approved by the University administration.

Prof Tayo urged the project contractor to ensure good and timely delivery.

Sheo Nigeria Ltd is handling the contract and are working to ensure completion," said the Associate Vice President for Works & Physical Planning, Prof. Ezekiel Adeniran.

"For now, we are not tagging the project with a particular School though the School of Nursing is going to get a part of the space."

"We have a timeline to complete this project. Barring any delays on the logistics and weather conditions, we should be able to deliver on target" said one of the site Engineers, Mr. Kingsley Olubanjo.

BUTH PHARMACISTS MARK WORLD PHARMACISTS DAY WITH OUTREACH

Pharmacist Blessing Amaike, (3rd from right) with professional colleagues at BUTH GOPD, Out patient ward.

By Josephine Akarue

Pharmacists at the Babcock University Teaching Hospital took their services outside the ivory tower as they marked the World Pharmacist Day with professional colleagues worldwide.

As part of the programme held in collaboration with other departments of the Hospital and Pharmaceutical partners, more than 200 beneficiaries received healthcare in a one-day outreach at the host community market in Ilishan-Remo .

According to Acting Director of Pharmacy Department, Pharmacist Blessing Amaike, more than the health talk on drug abuse, beneficiaries also had free dental and blood pressure check as well as medication for deworming.

More than 190 drugs were dispensed. The *Iya Loja,* the Head of the Market Women Association and other community leaders also benefitted from the outreach which was the first of its kind.

Service with a smile: Phamrcists at work in the Ilishan market.

The women beneficiaries were also full of appreciation for Babcock for the care.

"We are really grateful for this outreach," said one of the traders. "Some of us are not even aware that we have high blood pressure and others cannot afford the medical check needed to maintain good health," she said.

Aside the outreach, the programme witnessed presentations from Pharmaceutical partners, Emzor and Pharma Symbiosis.

DID YOU KNOW?

That:

- Though many people think that the sign, Rx used in many prescriptions is from the Latin word "recipe", which means "take", another theory submits that it evolved from the Eye of Horus, an Egyptian symbol believed to have healing powers?
- Pharmacy was separated from Medicine as far back as 1240 AD by Frederick of Hohenstaufen II, who was Emperor of Germany and King of Sicily?
- The mouthwash, Listerine is named after Joseph Lister who promoted using antiseptics at hospitals?
- The drink, Dr. Pepper, was invented by a pharmacist in Waco, Texas, USA after series of experiments in the laboratory?
- The first drug reference book in England was created in 1618 and backed by King James II?
- According to official records, Nigeria's first registered Pharmacist is **Mr Emmanuel Caulcrick.** He was registered on the September 1, 1902?

AXIOS CHOIR CELEBRATES INTERNATIONAL PEACE CONCERT

Empowerment through music and dance drama: The Axios Choir on stage celebrating peace and tolerance at the event.

By Josephine Akarue

The Babcock Axios Choir shared the stage and limelight with other singing groups to celebrate the International Peace Concert, Season 2 and its 16th anniversary powered by the Seventh-day Adventist Church, Asokoro, Abuja, Federal Capital Territory.

The red-carpet event held at the Abuja International Conference Centre, attracted not only big names in the Christian musical circles, it brought together like minds at the concert., themed, ***Hope in Troubled Times***.

Guest preacher, President/Vice Chancellor of the Adventist University of Africa, Nairobi, Kenya, Prof. Kelvin Ongha, encouraged all to trust God.

"The event was a big deal for us because it provided another opportunity to glorify God with high-powered performance, passionate singing and dynamic stage presence," said the Axios Musical Director, Dr. Raymond Okoro.

Axios was established in Babcock in 2016

BU BIOCHEMISTRY STUDENTS WIN 2022 NISEB QUIZ COMPETITION

By Josephine Akarue

Babcock University came tops as four students of the Biochemistry Department beat other contestants to emerge winners of the 2022 Society of Experimental Biology of Nigeria's maiden quiz competition.

The students: Noel Idonije, Feranmi Olalere, Aderinsola Yakubu and Chidubem Chimezie, beat second place contestants, Federal University of Ekiti, Ekiti State at the grand finale held during the Society's 22nd annual conference at Mountain Top University, Ogun State.

"It's on record that our students came tops at each of the three-stage contest and in the finals," said, a faculty in the department and BU Team coach, Dr. Abolanle Kayode. "While the Federal University of Oye-Ekiti, emerged second, the University of Lagos, came third place."

He also gave credit to Mr. Babafemi Ogunbiyi who provided logistic support.

Aside the laurels of gold medals, the BU Team came back with a plaque for the University, laboratory apparatus and other gifts.

The University also got hosting rights for the 2023 competition and 23rd annual general meeting.

"The University will not only enjoy publicity as host, it will also foster collaborations with industries and other participating institutions," said Dr. Kayode. "The conference will bring captains of industries and notable persons in the academia."

An equally elated Head of Biochemistry Department, Prof. Godswill Anyasor, is impressed.

"The students made us proud. Congratulations to the team, the supervisors and School of Basic Medical Sciences and the department," he said.

CONDOLENCES

The University administration regrets the loss of one of its faculty members, Dr. Olusegun Ojomoh, an Associate Professor of Broadcasting and News Media.

Until his death, Dr. Ojomoh was a faculty in the department of Mass Communication where he also earned his doctoral degree in 2013. He had his Bachelor's and Masters Degree in Mass Communication from the University of Lagos.

He is also an alumnus of Olabisi Onabanjo University, Ago-Oye, Ogun State where he had his MPhil.

Dr. Olusegun Ojomoh

Born November 25, 1968, he hailed from Oktikpukpa, Ondo State of Nigeria and is survived by his wife, children and other relatives. .

BENEFITS OF GROUNDNUT

Groundnut, like most legumes, is packed with nutrients like Vitamin E. magnesium and folate. It is high in antioxidants and has several other benefits:

- Helps to .reduce weight by curbing craving for junk.
- Reduces cholesterol levels.
- Helps to prevent cancer. Studies show that it could help against cancers like the colorectal.

FACTS

SEYCHELLES

Seychelles is an East African Indian Ocean country made up of 115 islands. It is renowned for its great beaches and coastal reefs. Its capital is Victoria.

- It is home to several rare animals including the giant Aldabra tortoises.
- It has two world UNESCO heritage sites.
- The Coco de mer, a specie of coconut on the island, produces the largest seed in the world, weighs about 15kg.
